# Internet Advancement 2.0 is Here

The new tool to quickly input advancement data, Internet Advancement 2.0 (previously known as Scoutbook Lite) is now live. This free solution replaces the previous Internet Advancement platform, which has been retired (for all programs except Exploring) on June 10, 2019.

Internet Advancement 2.0 features a clean, new user interface and will be optimized to whatever device you use: desktop, tablet or smartphone.

Internet Advancement 2.0 offers optimized functions for everything found in the current Internet Advancement platform and can be accessed by Unit Key 3 users, Unit Key 3 delegate users and Unit Advancement Chairs. This is done through the Organizational Security Settings within My.Scouting.org.

End users will access Internet Advancement 2.0 via one of the following locations using their my.Scouting credentials:
- Scoutbook.scouting.org
- From the Legacy Tools menu in my.Scouting.org
- A link in Scoutbook.com
- From the current Internet Advancement Platform

After initial release, the BSA IT team will continue to add additional features on a regular basis. Updates and new features will be communicated with the field as they are delivered.

Visit http://help.scoutbook.com for answers to commonly asked questions. As we are learning this as you do, we don't yet have any information on our council website about this. But we'll work to add some as soon as possible.
